Joe Slater - Co-Author of "[ChatGPT Is Bullshit](#)."

ChatGPT and other large language models, all of their information, their training data is billions of pages of the internet. And because of this, a lot of the ideas that it comes out with might just be stolen from other people. So again, you've got to be very careful, even if you're just trying to get away with it. If you're trying to pull a fast one, you might still end up putting yourself in a precarious situation.
